

City of Palo Alto Housing Element Update Interactive Map

[Palo Alto Housing Element Update Web App \(arcgis.com\)](https://arcgis.com)

The City of Palo Alto Housing Element Update Interactive Map is an online tool created by Rincon Consultants to facilitate the viewing of sites and associated attributes in the City of Palo Alto.

Using the Online Tool

When the application is first launched, an acknowledgement will automatically pop up on the splash screen. If you agree with the statement and would like to proceed to the online tool, please click the box next to, “I agree to the above terms and conditions” and push “OK”.

Once you have checked the box, you now have access to the online tool. To select and view sites, you have three options, circled in red below – “Filter the Sites”, “View the Sites”, and “Select a Site”. Using these three tools, parcels meeting conditions defined in the filter can be viewed in the map and corresponding table.

 CITY OF **PALO ALTO** PALO ALTO HOUSING ELEMENT UPDATE
Interactive Map

Filter the Sites

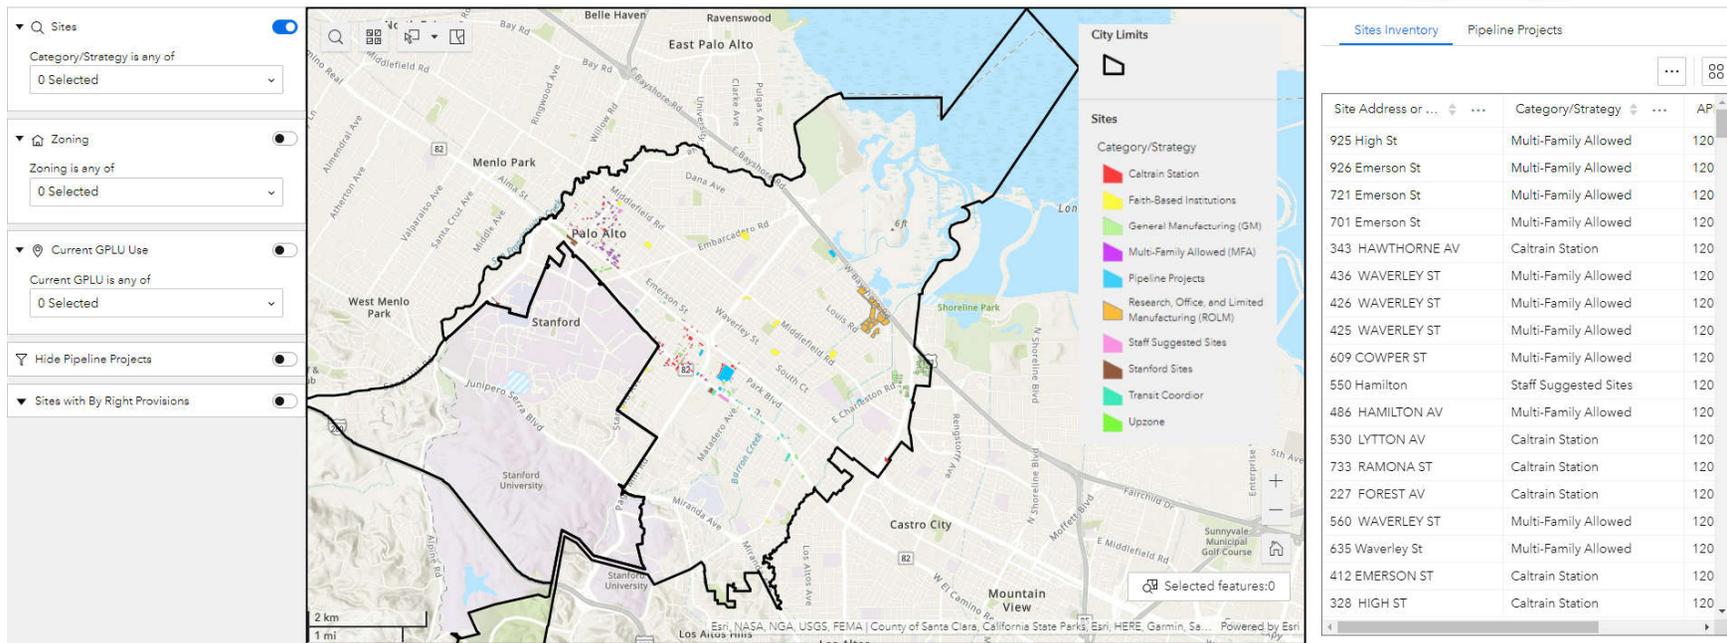

Select sites on the map by toggling the filters below.

View the Sites

Use the map below to locate sites and view their attributes.

Select a Site

Click on or search for one of the addresses and APNs in the list below to zoom to it on the map.

The screenshot displays the interactive map interface. On the left, there are filter panels for 'Sites', 'Zoning', 'Current GPLU Use', 'Hide Pipeline Projects', and 'Sites with By Right Provisions'. The central map shows Palo Alto with various colored markers representing different site categories. On the right, there is a 'City Limits' legend and a 'Sites' legend. Below the map is a 'Sites Inventory' table with columns for 'Site Address or ...', 'Category/Strategy', and 'AP'.

Site Address or ...	Category/Strategy	AP
925 High St	Multi-Family Allowed	120
926 Emerson St	Multi-Family Allowed	120
721 Emerson St	Multi-Family Allowed	120
701 Emerson St	Multi-Family Allowed	120
343 HAWTHORNE AV	Caltrain Station	120
436 WAVERLEY ST	Multi-Family Allowed	120
426 WAVERLEY ST	Multi-Family Allowed	120
425 WAVERLEY ST	Multi-Family Allowed	120
609 COWPER ST	Multi-Family Allowed	120
550 Hamilton	Staff Suggested Sites	120
486 HAMILTON AV	Multi-Family Allowed	120
530 LYTTON AV	Caltrain Station	120
733 RAMONA ST	Caltrain Station	120
227 FOREST AV	Caltrain Station	120
560 WAVERLEY ST	Multi-Family Allowed	120
635 Waverley St	Multi-Family Allowed	120
412 EMERSON ST	Caltrain Station	120
328 HIGH ST	Caltrain Station	120

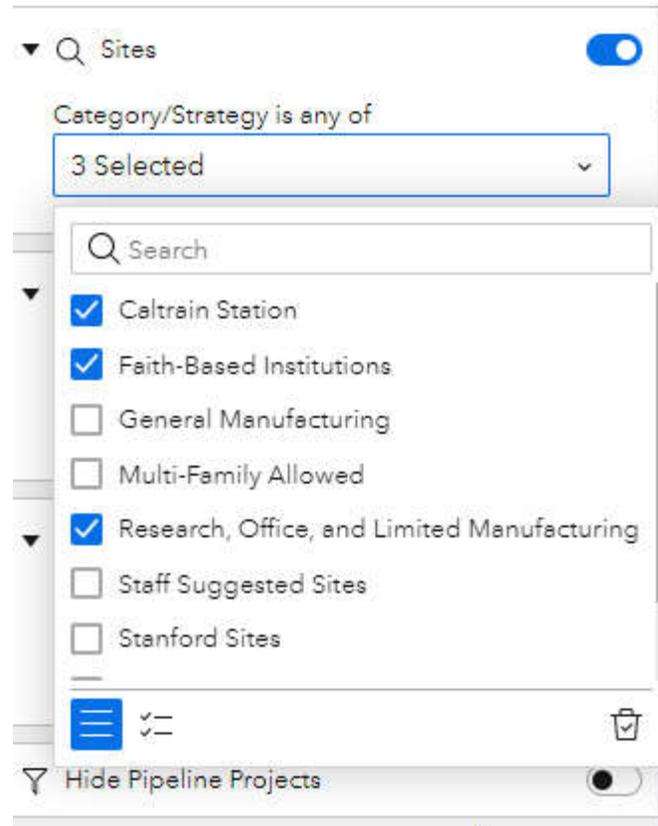

Filter the Sites

In the “Filter the Sites” section of this online tool, parcels can be filtered by Category/Strategy, Zoning, or Current General Plan Land Use. You can select multiple category/strategy fields, land uses, and zoning to customize the selection. Additionally, parcels meeting certain conditions can also be turned on or off.

The image shows a vertical panel titled "Filter the Sites" with the instruction "Select sites on the map by toggling the filters below". It contains five filter sections, each with a dropdown arrow on the left and a toggle switch on the right:

- Sites:** A search icon is next to the label. The toggle is turned on (blue). Below it is a dropdown menu labeled "Category/Strategy is any of" with "0 Selected" and a downward arrow.
- Zoning:** A house icon is next to the label. The toggle is turned off (grey). Below it is a dropdown menu labeled "Zoning is any of" with "0 Selected" and a downward arrow.
- Current GPLU Use:** A location pin icon is next to the label. The toggle is turned off (grey). Below it is a dropdown menu labeled "Current GPLU is any of" with "0 Selected" and a downward arrow.
- Hide Pipeline Projects:** A funnel icon is next to the label. The toggle is turned on (blue).
- Sites with By Right Provisions:** A downward arrow icon is next to the label. The toggle is turned off (grey).

Shown in the image below, multiple categories/strategies can be chosen by checking multiple boxes next to the categories. If Caltrain Station, Faith-Based Institutions, and Research, Office, and Limited Manufacturing are chosen, parcels with any of those values will be shown in the map and corresponding table.

By default, Pipeline Projects are hidden. If you'd like to view pipeline projects, you can unhide them by toggling the switch next to "Hide Pipeline Projects" so that the switch is no longer blue. Additionally, "Sites with By Right Provisions" can also be toggled on or off. To view sites with by right provisions, click the switch so it turns blue.

Filter the Sites

Select sites on the map by toggling the filters below

▼ Q Sites

Category/Strategy is any of

3 Selected

▼ 🏠 Zoning

Zoning is any of

0 Selected

▼ 📍 Current GPU Use

Current GPU is any of

0 Selected

▼ 🚧 Hide Pipeline Projects

▼ 📄 Sites with By Right Provisions

In general, a blue switch means that a layer is turned on and a white switch indicates it is turned off. In the image above, pipeline projects are hidden and sites with by right provisions are turned off.

View the Sites

The map under “View the Sites” can be used to view sites that are queried via the filters in the “Filter the Sites” portion of this tool. When opening the tool, all sites, except for pipeline projects, will be showing.

View the Sites
Use the map below to locate sites and view their attributes

The map shows a street grid in Palo Alto, California, with several sites highlighted in different colors. A pop-up window is open over a specific site, displaying the following details:

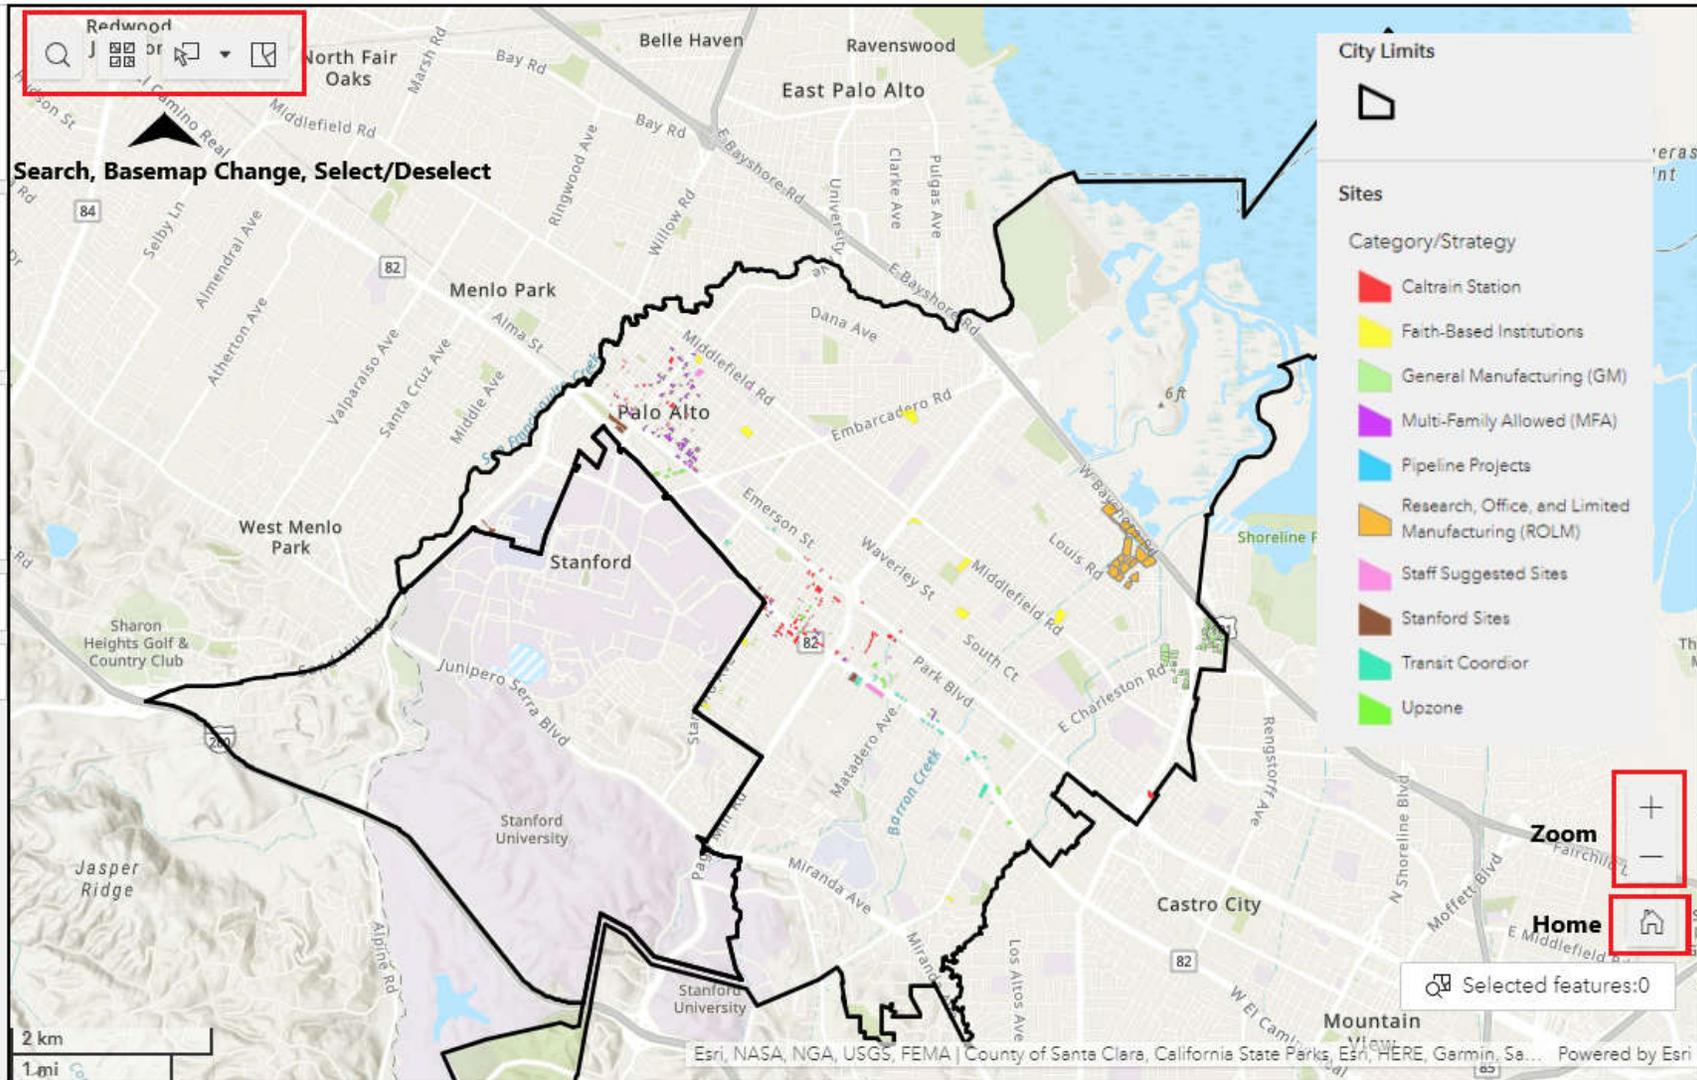

APN: 124-28-045	
APN	124-28-045
City Name	Palo Alto
Lot Dimensions	
Total Land Value	2455856
APN Short	12428045
Category/Strategy	Caltrain Station
Site Address or Street	156 N CALIFORNIA AV
Zoom to	

The legend on the right side of the map lists the following categories and strategies:

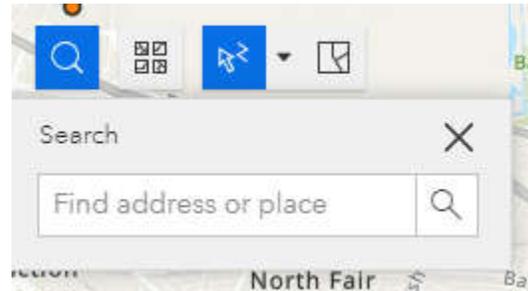

- Caltrain Station
- Faith-Based Institution
- General Manufacturing
- Multi-Family Allowed
- Pipeline Projects
- Research, Office, and Manufacturing (ROLM)
- Staff Suggested Sites
- Stanford Sites
- Transit Corridor
- Upzone

Clicking on a parcel in this map opens a pop up that provides site-specific details, shown above. Scroll up or down using the grey bar on the right side of the pop-up to view all available parcel details.

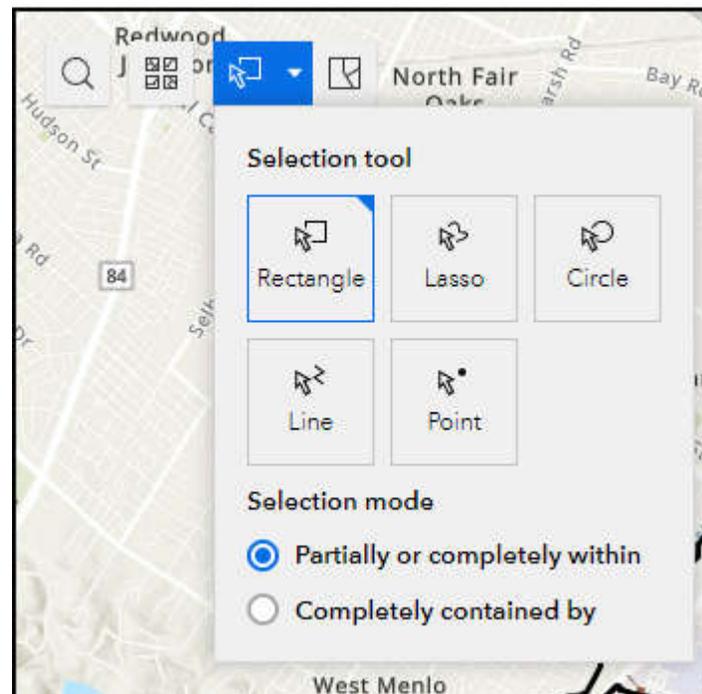

As circled below, the “+” and “-“ buttons in the bottom right corner of the map can be used to zoom in or out in the map if you’d like to take a closer look at a parcel or zoom out to see the larger picture. Pushing the “home” icon below the zoom buttons takes you to the original extent of the map that is shown when you launch the tool.

At the top left, the Search, Basemap, and Select/Deselect tools can be accessed. Click the “Search” button (far left) to find an address or place on the map.

If you'd like to change the basemap (background image of the map) to an aerial image, topographic map, or other background image, click the Basemap button (middle), and select your preferred basemap.

The Select/Deselect buttons (above) can be used to modify your selection. If you'd like to select a parcel on the map, there are multiple selection tools available. Rectangle, Lasso, Circle, Line, and Point allow the user to select parcels using drawing tools. All shapes can be adjusted to allow the user to hand select parcels. Additionally, the user can select whether they want their selection to include parcels partially or completely within the selection tool boundaries or only include parcels completely contained by the selection tool. The deselect button to the right of the selection tool clears any selection made.

Select a Site

When you use the "Filter the Sites" function on the left side, sites that are showing in the map will also populate the table. The "Sites Inventory" portion of the table shows any sites that are showing in the map, based on filters selected in the "Filter the Sites" column. Use the grey bar at the bottom to scroll left and right to see additional attributes.

Select a Site
Click on or search for one of the addresses and APNs in the list below to zoom to it on the map

Sites Inventory Pipeline Projects
